

## English

### READING / WRITING

: students are planning, editing and creating, on powerpoint, either personal life highlights or a short story to present to the class. Peer evaluating the work & presentation content/ structure

**WORD KNOWLEDGE:** spelling swaps continue

### LISTENING AND SPEAKING

: expectation that respectful listening will occur and that speaking will be clear, meaningful and engaging of the audience

**CLASS NOVEL READING:** class sharing the roles and characters as we read "Holes". Watch DVD and discuss similarities and differences.

**COMPREHENSIONS:** continue with activities

**PERPLEXORS:** continue with logic puzzles

## Science

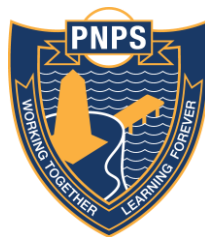

Using chosen activities / experiments from **STEM** books, students will work individually or in pairs to plan and perform these tasks. Students will need to keep records of their efforts and improvements they made and outcomes they achieved.

All four areas of STEM need to be completed.

## Technologies

Using ipads to create an advertisement for their store created for E & B sessions.
